601 GALVANISED GRATED CHANNEL

The details that make the difference.....

CLASS B GALVANISED DRAINAGE CHANNEL

SABdrain 601 combines the flexibility and durability of a polypropylene drainage channel unit whilst still being able to satisfy the strength requirements for situations that require accessibility for passenger and light commercial vehicles. This reliable Class B rated channel and grate has been designed to offer maximum versatility while delivering a lifetime of low maintenance service. Each galvanised gate comes with a 2 point security fixing, to keep it rattle free from vehicular movements and secure it from unauthorised access. Heel guard type grate, preventing heeled shoes & other objects from becoming caught in the grate. Ideal for driveway drainage, use around gardens, footpaths, schools, pathways, petrol stations, walkways, decks & outdoor areas, universities, aged care facilities, around equestrian stables, barns and much more.

603 GALVANISED GRATED CHANNEL

The details that make the difference.....

CLASS B POLYPROPYLENE DRAINAGE CHANNEL

SABdrain 603 series combines the flexibility and durability of a polypropylene drainage channel unit whilst still being able to satisfy the strength requirements for situations that require accessibility for passenger and light vehicles, as well as malls & areas open to slow moving heavy commercial vehicles. This rated channel and grate has been designed to offer maximum versatility while delivering a lifetime of low maintenance service. Each galvanised grate comes with a 8 point security fixing, to keep it rattle free from vehicular movements & secure it from unauthorised access, as well as steel side edges to give greater resistance to heavy loads.
